Köln, 02/05/15

My international student *César Augusto Borromeo García* from the University of Veracruz (Mexico) has successfully concluded his research stay at the University of Cologne (Germany), programmed from February 03 to May 02, 2015.

As his research tutor in Germany, I can guarantee that his goals during this stay have been met. The following are examples of the main activities performed during his stay at the university:

- Important progress in his data analysis
- Completion of one academic article to be sent to publication
- Three presentations of his research work:
 - The first with me and a PhD-student from the University of Barcelona (Spain)
 - The second with researchers at the University of Paderborn (Prof. Dr. Bardo Herzig and his research group)
 - The third with my colleague Dr. Karl Steffens and a group of 20 students of the degree "Intermedia" (Media Education, Media Design, Media Culture) at the University of Cologne.
- Attendance to the congress „Wenden in den Geistes-, Sozial- und Kulturwissenschaften“ (“Turns in Humanities, Social Sciences and Cultural Studies”), organized by my research group and held at the University of Cologne on the 17th and 18th of April.

I really enjoyed the highly productive collaboration and hope that we can continue our work in the future.
