

# Guía práctica del recurso de información

**Dirección General de Bibliotecas**

***SpringerLink*** es una de las principales fuentes multidisciplinarias de recursos utilizadas por investigadores, profesores y estudiantes, que proporciona el acceso a miles de documentos de revistas académicas de la editorial *Springer*.

# Acceso

Existen dos formas de acceso a la base de datos *SpringerLink*:

- 1) Si el usuario se encuentra **conectado a la RIUV**, es decir, trabajando en equipos que pertenecen a la Universidad Veracruzana o bien, en sus propios equipos o dispositivos conectados a la RIUV, deberá acceder a la dirección [www.uv.mx](http://www.uv.mx). En la parte central de la página aparece en el menú el apartado de **Arte, ciencia, cultura y deporte**, y se ingresa en el vínculo BIBLIOTECAS. Se abrirá una nueva página con varios puntos de acceso dentro de los cuales se encuentra el vínculo a **BIBLIOTECA VIRTUAL** y en el apartado de Multidisciplinarias encontrará el recurso.
- 2) Si el usuario se encuentra **fuera de la red UV**, por ejemplo, en su domicilio, en un cibercafé, es decir, en un lugar externo a la red UV, deberá ingresar **por medio de MiUV** y en el menú de recursos se encontrará con el acceso a **BIBLIOTECA VIRTUAL** (es importante notar que en la parte derecha se encuentra una flecha que permite mostrar un segundo menú de recursos donde se ubica el acceso a la BV). En el apartado de Multidisciplinarias encontrará el acceso a SpringerLink.

## Navegación

SpringerLink ofrece una interfaz muy sencilla que le permite navegar al usuario de forma intuitiva dentro de la plataforma.

En la pantalla de inicio, aparece el listado de **disciplinas** por las que se encuentran clasificados los materiales en la base de datos, esto permite tener una idea general del volumen de información que puede haber del área de su interés.
