

Dr. Efrén Mezura-Montes

Brief CV

Dr. Efrén Mezura-Montes is a full-time researcher with the Artificial Intelligence Research Center at the University of Veracruz, MEXICO. His research interests are the design, analysis and application of bio-inspired algorithms to solve complex optimization problems. He has published over 150 papers in peer-reviewed journals and conferences. He also has one edited book and over 11 book chapters published by international publishing companies. From his work, Google Scholar reports over 7,100 citations.

Dr. Mezura-Montes is a member of the editorial board of the journals: “Swarm and Evolutionary Computation”, “Complex & Intelligent Systems”, “International Journal of Dynamics and Control” and the “Journal of Optimization”. He is a former member of the editorial board of the journals “Computational Optimization and Applications” and “Soft Computing”. He is also a reviewer for more than 20 international specialized journals, including the MIT Press Evolutionary Computation Journal, IEEE Transactions on Evolutionary Computation and the IEEE Transactions on Cybernetics.

Dr. Mezura-Montes is a member of the IEEE Computational Intelligence Society Evolutionary Computation Technical Committee and he is the founder of the IEEE Computational Intelligence Society task force on Nature-Inspired Constrained Optimization. He is a member of the IEEE Systems Man and Cybernetics Society Soft Computing Technical Committee. He is also regular member of the Machine Intelligence Research Labs (MIR Labs).

Dr. Mezura-Montes has been recently promoted to Level-III member of the Mexican National Researchers System (SNI). Moreover, Dr. Mezura-Montes is a regular member of the Mexican Academy of Sciences (AMC), a regular member of the Mexican Computing Academy (AMEXCOMP) and also a Technical Committee member of the Mexican Science Council (CONACyT) Collaboration network on Applied Computational Intelligence.

Finally, Dr. Mezura-Montes has supervised 16 PhD theses and 39 Master theses. He has also examined over 12 PhD theses and over 45 Master theses, most of them in Mexico, but also in Australia, Argentina and India.
