

# I CICA SEMINAR ON AGRESSION BASIC ISSUES

## AIM

The aim of the seminar is to present and exchange theoretical and research achievements in the field of research on aggression as a social and developmental phenomenon in various life contexts (families, individuals, groups) and cultural ones (North, South America and Europe). Moreover, due to the cyclical nature of the conference, its aim is to activate the scientific community and students to cooperate in the creation of joint research or educational projects.
